RE: Energy Updates: File # PLALEG-09-06-0003

I'm writing to encourage Wasco County to adopt the same standards and conditions in regards to siting, setbacks and boundaries as the State Energy Facility Siting Council. (EFSC):

- External Property Boundaries; 1.1 times the height of the blade tip setback
- Resource Zone Dwellings; a minimum distance of 1325 feet setback
- Non-Resource Zone; a minimum distance of 2640 feet setback from property lines
And urban growth boundaries.

With the more restrictive boundaries and setbacks, the access to the favorable winds would be limited, and in today's economy, Wasco County needs all the potential income which can be created.

Thank you for your consideration.

A handwritten signature in cursive script that reads "Larry Ashley".
