

Action Item Proposal Form

Proposed Action Item Identification: (Example Multi-Hazard; Flood; Drought; Windstorm; Winter Storm; Landslide, Earthquake; Wildfire; Volcanic)		Alignment with Plan Goals: (List Goals the action helps to achieve.)
EH#3		<ul style="list-style-type: none"> ▪ Acknowledge Responsibility
Proposed Action Title:		
Improve Understanding of Vulnerability and Risk		
Rationale for Proposed Action Item: (What critical issues will the action address?)		
<ul style="list-style-type: none"> ▪ If we can understand the risk from earthquakes closer to reality, we can plan and use resources more appropriately to prepare against this hazard. Better data provides for better decisions to minimize loss. In the case of lifelines, minimizing direct losses also minimizes the "snowball effect" or indirect losses also. 		
Ideas for Implementation:		
<ul style="list-style-type: none"> ▪ Complete an inventory of critical public facilities, including schools, emergency facilities, first-responder buildings, other key public use structures, and infrastructure lifelines. This is particularly important for critical structures (schools and emergency facilities) and lifelines. After the improvement of the hazard layers and the vulnerability inventory, the risk analysis should be reevaluated. 		
Coordinating Organization:	Emergency Management	
Internal Partners:		External Partners:
Planning, GIS		DOGAMI, DLCD, OEM
Timeline:		If available, estimated cost:
<u>Short Term</u> (0-2 years)	<u>Long Term</u> (2-4 or more years)	n/a
X		
Form Submitted by:	DOGAMI
