

Action Item Proposal Form

Proposed Action Item Identification: (Example Multi-Hazard; Flood; Drought; Windstorm; Winter Storm; Landslide, Earthquake; Wildfire; Volcanic)		Alignment with Plan Goals: (List Goals the action helps to achieve.)
FH#3		<ul style="list-style-type: none"> ▪ Intergenerational Equity ▪ Protection of Property ▪ Acknowledge Responsibility ▪ Education & Outreach
Proposed Action Title:		
Address Repetitive Loss		
Rationale for Proposed Action Item: (What critical issues will the action address?)		
<ul style="list-style-type: none"> • If County becomes a participant in the CRS, it will be required to develop a Flood Mitigation Assistance Program. FEMA requires that communities developing Flood Mitigation Assistance Programs work with homeowner within the community who have had repetitive loss due to flooding. Implementing this action item will assist the County in meeting Federal Requirements for CRS and the Flood Mitigation Assistance Program. • County will receive additional points for the CRS program if the County addresses repetitive flood loss properties through NFIP. ▪ The State of Oregon’s Natural Hazard Mitigation Plan indicates County’s probability for a future flood event is high (that the county would be likely to have a major flooding event in the next 10-35 years) and the county’s vulnerability to a future flood event is moderate. Improved collaboration with owners of at-risk properties can help the County to better identify ways to reduce its flood risk. ▪ One of the National Flood Insurance Program’s primary objectives is to reduce the number of properties subject to repetitive loss. This can be accomplished by first identifying those properties that have been impacted by more than one flood event and then elevating or relocating the home, or acquiring the home for demolition and returning the vacant land to open space in perpetuity. 		
Ideas for Implementation:		
<ul style="list-style-type: none"> ▪ Consult with property owners and explore mitigation actions for the 12 County properties on FEMA's national repetitive loss list ▪ For locations with repetitive flooding and significant damages or road closures, determine and implement mitigation measures such as upsizing culverts or storm water drainage ditches 		
Coordinating Organization:	Planning	
Internal Partners:		External Partners:
Planning, County Court, Emergency Management		FEMA, DLCDC
Timeline:		If available, estimated cost:
<u>Short Term</u> (0-2 years)	<u>Long Term</u> (2-4 or more years)
